- Stockholms Stad
- Softeco
- Shaping Cloud

Deliverable

Number: **D3.5**

Title: Final Event

Lead beneficiary: USFD

Work package: WP3

Dissemination level: Public

Nature: Other

Due date: 31.12.2019

Submission date: 30.12.2019

Authors: Project Coordinator

Contributors: Beneficiaries

The final event was organised at Sheffield Management School, in agreement with the Project Officer, instead of Rome, as this facilitated attendance of project members as well as other stakeholders.

The workshop was very well received and attended by 108 participants (a list of attendees is available on request, but not shared here for GDPR compliance).

The agenda, with links of the presentations delivered by the staff seconded to the partner organisations along with their hosts, is appended.

Links to the presentations are available on the project website at <http://www.prosfet.eu/PROSFET/index.php/2019/08/05/international-workshop-on-policy-and-decision-making-approaches-for-sustainable-urban-freight-transport/>

| 12:30-13:15 | Q&A |
| 13:15-13:30 | Conclusions – <i>Andrea Genovese (SUMS)</i> |

Andrea Genovese (USFD), Project Coordinator, opened the event

Secondees from the consortium shared the findings of the project (in the pictures, from the right, Sergio Rubio from UEX, Robin Billjo from SS, Adrian Solomon from SEERC, Shucheng Luo from USFD).

Softeco was present at the event with two of their secondees, Alessandro Barisone and Marco Gorini, who have also been the main point of contact for the USFD secondees – Andrea Genovese and Leonardo Stella (in the picture), as well as Andrea Serena, Shucheng Luo, and Jing Li.
